Re: 02-RIN-01198-06

Dear Mr. Danzig:

I am writing in response to your April 21, 2006, Freedom of Information Act (FOIA) request for information regarding the Sherwin-Williams/Hilliards Creek site in Gibbsboro, New Jersey. In your FOIA you requested all information that EPA relied upon to support the proposal to place the site on the National Priorities List (NPL).

All of the information EPA used pursuant to the decision to propose the Sherwin Williams-Hilliards Creek site is contained within the Hazard Ranking System (HRS) Documentation Record and associated references and is available in the public docket. It is not necessary to submit a FOIA request to obtain it. In fact, at the request of Sherin Williams, Sherwin-Williams, a contractor of Sherwin-Williams came to the EPA Region 2 office on May 1, 2006, to obtain the entire HRS package. Attached is a signed receipt showing that the contractor received all of the necessary information.

The information was transferred to Weston at the request of Mary Lou Capichioni, Director of Sherwin Williams' Remedial Services on April 19, 2006. A copy of that request is enclosed.

Therefore, all of the documentation supporting the NPL proposal has been available to Sherwin-Williams since very early in the comment period. EPA has no further documents to provide. If you have any further questions, please contact Dennis Munhall, EPA Region 2, at (212) 637-4343.

Sincerely,

Dennis Munhall, NPL Coordinator
Emergency and Remedial
Response Division
